Family Matters – a national community outreach pro

Utilizing photographic and mental memories, the afflicted and the caregiver connect and converse by sharing conversation and emotions, resulting in a reduction of isolation, loneliness, depression, and profound improvement in ongoing socialization. Designed for paid and unpaid caregivers, this series of classes provide instruction that creates connection. Joshua is an award-winning memory care program developer, researcher, and author. His care and training philosophies have been featured in prominent publications, TV, and more. Freitas is Vice President of Program Development at CERTUS Senior living and Chair of the Board for the National Institute for Dementia Education.
